

advice concerning their condition.

2. The University will not discriminate against any member of the University community on the grounds of HIV infection. The identity of any person in the University community with HIV infection will be held in strict confidence.
3. The University will provide education and appropriate information on AIDS and related diseases to students and others in the University community. The University has an advisory committee on AIDS policy.

E. Student Accessibility Services Policy

From our Mission...

We are united in the belief that women and men of divergent backgrounds and abilities should have an opportunity to learn and practice critical thought and to realize their intellectual potential in an academic setting that is both responsive and stimulating. We believe that learning engages the whole person; we seek to provide an environment conducive to enriching student life.

...To Our Commitment

St. Thomas University is committed to creating an equitable environment by ensuring that all members of our community have access to the full range of university life. This means supporting students with disabilities in their full participation in the educational, social and cultural life of our university. Sharing responsibility with each student for their success, our accessibility program is consistent with our academic standards as we strive to make reasonable and appropriate accommodations to allow students to enjoy the benefits of higher education.

'Disabilities' shall be defined as those conditions so designated under the New Brunswick Human Rights act and will include physical, medical, learning, and psychiatric disabilities.

1) Mission Statement of Student Accessibility Services (SAS)

St. Thomas University is mandated by law and the aspirations to provide a safe and accessible environment for all students.
